EDUCATION

B.Tech in Computer Science and Engineering Vellore Institute of Technology (VIT) CGPA: 8.9/10	2022 - 2026
---	--------------------

TECHNICAL SKILLS

Languages:	Python, SQL, JavaScript, C++
AI & ML:	LLMs, LangChain, CrewAI, NLP, Transformers, PyTorch, Hugging Face
Tools & Frameworks:	FastAPI, Docker, Git, ChromaDB, Vector Databases, Postman

PROJECTS

Autonomous AI Researcher Agent LangChain, CrewAI, FastAPI - Built a multi-agent system using CrewAI to research and write comprehensive summary documents. - Integrated Chroma-DB vectors to query internal company PDFs representing contextual grounding. - Exposed generation as a lightweight REST endpoint scoring sub 15-second generation bounds.	Jan 2026
Generative RAG PDF Analyzer PyTorch, OpenAI, Docker - Engineered a PDF parser to index 10k+ pages correctly into structured embeddings context graphs. - Leveraged meta-Llama chains to accurately classify semantic anomalies inside unstructured logs.	Nov 2025

CERTIFICATIONS

- Deep Learning Specialization (Coursera)
- Hugging Face NLP Native Advanced Course
